Polished Plaster (Concrete Finish)

Applied to feature walls and structures, both interior and exterior.

This structure is located near the pool area of a newly built set of apartments.

This shiny, satin to the touch polished plaster finish adds quality and class and reflects the modern and refined feel of this feature.

Scumble Glaze over Pitted Tonachino

Applied to walls, under wooden beams and signage. Krusty Kob is located in the Dianella Shopping Center.

This dramatic effect was achieved by combining a scumble glaze over open texture with pitted and cratered patches to complement the look of this shop.

Distressed Brick Finish Venetian Plaster

The combination of distressed brick and venetian plaster finishes applied to opposite

walls inside this venue create a modern yet warm and welcoming atmosphere.

Stucco

This project demonstrates the flexibility of using plaster products in creating bespoke finishes.

Burnished, waxed stucco was applied to the vinyl lapboard planking on the walls in the stairwell and bar area.

The effect adds sophistication to the industrial look.

Tonachino / Tyrolean Render

Applied with an open texture throughout the store interior to create a distinctive, high-end elegance.

The finish provides a perfect showcase that reflects and enhances the prestige of the garments that are available in this store.

TROWEL APPLIED FINISHES / SAMPLES

Tonachino and Travertino

A diverse range of effects can be obtained by applying different combinations of technique, texture and colour. Dramatic effects can be achieved by combining open texture with pitted and cratered patches.

Softer, stone like finishes in any colour are also possible. The coarse, grainy textures are perfect to create a rustic look or complement an industrial look. Can be applied to exterior and interior surfaces.

TROWEL APPLIED FINISHES / SAMPLES

Marmorino, Stucco

Earthy and natural (medium grain) or polished and luxurious (fine grain) – the finest, silkiest and shiniest effects can be achieved with marmorino and stucco.

Dramatic or fine, velvety effects are obtained through choice of colours and application technique. Marmorino can be applied to interior and exterior surfaces.

Stucco is for internal use only.
